

CONCLUSSION, RAMIFICATIONS, & SCOPE

The E-Commerce Role Playing Platform provides a forum of game playing that has yet to be broached by the video game or internet industries. Not only will this format of game play appeal to players of all ages, races, & sexes, it will single-handedly provide a forum for interactive, non-aggressive game play for members of the World Wide Web community. The platform has the potential for wide-scale distribution to numerous companies with the ability to give the public new material in a highly competitive genre. This format can be used to propagate imagination, encourage intelligent spending habits via player maintenance of the "game account," & generate revenue for companies while simultaneously contributing to the positive connection of people around the world. The market for the E-Commerce Role Playing Platform is universal and can be translated into any number of languages for the entertainment and the development of non-aggressive competition in other countries.

CLAIMS for this invention

A platform for game play within existing games or games developed around the E-Commerce Role Playing Platform:

- (a) providing interactive, multi-user game play via the internet that will generate revenue for a variety of already established & yet to be developed game companies focusing on this particular game platform
